

Andrew Ingredients LED Upgrade by Resourceable

RESOURCEABLE LED LIGHTING: THE PERFECT RECIPE FOR ANDREW INGREDIENTS

Andrew Ingredients, founded in 1945, is a supplier of top quality wholesale bakery products, bakery ingredients, food ingredients and bakery supplies to bakeries and food producers throughout Ireland. They are one of the top bakery ingredient suppliers in Ireland due to their extensive product list and excellent customer service.

After relocating in May 2011 and doubling the size of their facilities to 24,000 sq ft, Andrew Ingredients contacted Resourceable to

advise on energy savings and in particular on how to improve the lighting on site. Resourceable Ltd guided the customer from start to finish, from initial designs, proposed savings, 3D simulations through to LED lighting supply, installation guidance and assistance with grant aid paperwork. "If you have ever been the recipient of outstanding customer service it's a great experience. That's the experience we strive to leave our customers with," said Sean O'Kane of Resourceable.
