

Pritchitt's LED Lighting Upgrade by Resourceable

81% SAVINGS AT PRITCHITT'S FROM NEW LED LIGHTING PROJECT

The Lakeland Dairies group has grown into a global market leader in the manufacturing of dairy based products. Their foodservice products are developed with the professional in mind, delivering high-quality, yet functional products to busy kitchens and bakeries around the world.

Their expertise lies in technically advanced dairy products, which give the chef, caterer or baker the convenience of longer life products without compromising on quality.

Lakeland supply customers in over 70 countries across Europe, the Middle East, Asia and Africa.

When the company identified the need for further energy and carbon savings, Resourceable was their first choice to upgrade lighting at their factory in Newtownards, N.Ireland.

Resourceable Ltd. has carried out many similar projects and was the number one choice when it came to selecting a lighting company that could handle such a large

At a Glance

Reduction in kWhrs: 742,696 kWhrs
Reduction in Running Costs: £50,000/annum
Reduction in Carbon: 357 Tonnes of CO2
Project Payback: 14 Months
Grant Aid: Secured
LED Lights Installed: 400

Tim Acheson – General Manager

I can confidently recommend Resourceable. They delivered a high quality lighting upgrade which has reduced our electricity costs and transformed our site. Light levels, uniformity and colour rendering are excellent.

The project reduced lighting running costs and carbon output underpinning our ongoing commitment to the environment.

Congratulations
to Phil Hunter and Pritchitt's
on winning **Industrial and
Transport Lighting
Project of the Year** at the
2017 Lux Awards in London!

and complex project. Resourceable is an experienced specialist in turnkey LED lighting, energy and automation projects, with the ability to tick every box for customers including: product quality, design expertise, customer financial support, project management, professional installation and free recycling service. Resourceable with partners, electrical specialists Scotts, installed and commissioned LED luminaires from Dextra, to deliver optimum lighting performance, quality and value for money for Pritchitt's. Phil Hunter of Pritchitt's

managed this particular project on the client side. Phil, one of Pritchitt's most experienced engineers, laid down a stringent lighting specification in terms of performance, controllability and savings targets.

Sean O'Kane of Resourceable commented: 'We have a 50 point checklist covering surveys, not to mention our key deliverables throughout a project. This attention to detail gives our customers peace of mind in the knowledge that we are taking care of any issues before they arise and also that they are getting the

optimum LED lighting solution for their working environment.'

Dextra's Verteco & Impervia LEDs were chosen for this Project

"There are an abundance of lighting products available and choosing products, suppliers and installers is a dilemma for many clients", explained Sean. "Customers continue to recommend us, project after project; potential clients can 100% rely on us to deliver quality LED lighting solutions!"
